SUMMARY

Motivated Web Developer with hands-on experience in building responsive, scalable web applications using React, Next.js, and Tailwind CSS. Skilled in writing clean, maintainable code and collaborating with design teams to bring UI/UX to life. Passionate about performance optimization, accessibility, and continuous learning.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript, Python.
Frameworks/Libraries: React, Nextjs, Tailwind CSS, Bootstrap, Express, Django
Databases: MySQL, MongoDB
Tools: REST API, Postman, MySQL Workbench, Git, GitHub, Mailjet, Mailtrap

SOFT SKILLS

Problem-solving · Strong attention to detail · Team collaboration · Communication · Continuous Learner

TECHNICAL PROJECTS

TechNova – Software Services Website – GitHub • Live Demo
- Developed a responsive multi-page website using React and Tailwind CSS
- Built modular components for Home, About, Services, Contact, and Careers pages
- Enhanced UX with smooth navigation, clean layout, and accessibility focus

TeamBase – Employee Management System – GitHub • Live Demo
- Created a full-stack CRUD application with React, TypeScript, Express, and MongoDB
- Implemented authentication, live search, and session management
- Integrated Mailjet for real-time email communication in contact form

Portfolio Website – Showcasing Projects and Skills GitHub • Live Demo
- Developed a personal portfolio using Next.js, TypeScript, Tailwind CSS, and Flowbite
- Implemented dark/light mode toggle and contact form using EmailJS
- Deployed live version showcasing multiple projects with links to GitHub and demos

EDUCATION

Full Stack Development Bootcamp – AXSOS Academy, Palestine (April 2024 – September 2024)
- Completed over 660 hours of part-time training in HTML, CSS, JavaScript, Python, and algorithms
- Completed two full-stack projects using Django (one solo and one team project)

WORK EXPERIENCE

Web Developer — Personal Projects | Palestine (April 2024 - Present)
- Built responsive web applications using React, Next.js, and TypeScript, with backend APIs in Express.
- Created modular, reusable UI components with Tailwind CSS
- Integrated REST APIs and handled client-side state management with useState
- Continuously exploring new tools like MUI and Docker to enhance development skills
