SUMMARY

Motivated Frontend Developer with a strong passion for building responsive, accessible, and interactive web applications. Proficient in React, Tailwind CSS, and JavaScript, with hands-on experience in backend technologies such as Node.js and Django. Strong understanding of modern frontend frameworks, and a fast learner eager to contribute to impactful real-world projects.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript, Python
Frameworks & Libraries: React, Next.js, Tailwind CSS, Bootstrap, Express, Django
Databases: MongoDB, MySQL
Tools & Technologies: Git, GitHub, REST APIs, Postman, Mailjet, Mailtrap, MySQL Workbench

Soft Skills

Problem-solving · Attention to detail · Team collaboration · Communication · Adaptability · Continuous Learner

TECHNICAL PROJECTS

TechNova – Software Services Website – GitHub | Live Demo
- Developed a responsive multi-page website using React and Tailwind CSS
- Built modular components for Services, About Us, and Careers sections
- Enhanced UX with smooth navigation, clean layout, and accessibility focus

TeamBase – Employee Management System – GitHub | Live Demo
- Created a full-stack CRUD application with React, TypeScript, Express, and MongoDB
- Implemented authentication, live search, and session management
- Integrated Mailjet for real-time email communication in contact form

Portfolio Website — GitHub | Live Demo
- Developed a personal portfolio using Next.js, TypeScript, Tailwind CSS, and Flowbite
- Implemented dark/light mode toggle and contact form using EmailJS
- Deployed live version showcasing multiple projects with links to GitHub and demos

EDUCATION

Full Stack Development Bootcamp – AXSOS Academy, Palestine (April 2024 – September 2024)
- 660+ hours of training in JavaScript, Python, algorithms, and full-stack projects
- Completed two full-stack projects using Django (solo and team)

WORK EXPERIENCE

Frontend React Developer — Personal Projects | Palestine (April 2024 - Present)
- Built responsive web apps using React, Next.js, and TypeScript
- Created modular, reusable UI components with Tailwind CSS
- Integrated REST APIs and handled client-side state management with useState
- Continuously exploring new tools like MUI and Docker
- Projects include: TechNova, TeamBase, and a personal portfolio
